headings and font sizes

Headings and fonts should appear properly
aligned and visually balanced

Open website in chrome

Website should open and function properly
in chrome

Navigate through multiple sections

Navigation should be user friendly

Actual Results	Status	Severity
Home page loaded successfully	Pass	Low
Navigation works properly	Pass	Medium
Button is fully visble and responsive for submission	Pass	High
Button appears cut off on mobile view	Fail	High
Required field validation displayed	Pass	High
Invalid email rejected	Pass	High
Form accepts numeric/ single-character input and submits successfully	Fail	High

Form accepts invalid company name input
and alllows submission

Fail

High

Content is not properly fitted on mobile
screen and extra empty space appears on
right side

Fail

Medium

Slight lag/ slowness observed while
scrolling through live module cycle/video
section

Pass with
Observation

low

Privacy Policy page opened successfully

Pass with
Observation

Medium

Same content as privacy policy observed

Fail

Medium

Clicking YouTube icon redirects to "404
Page Not Found" error page

Fail

Medium

"Watch Full Platform Tour" button overlaps with next section heading due to larger font/layout issue	Fail	Medium
Loaded Successfully	Pass	Low
Links working correctly	Pass	Medium
Mobile number and email links redirect successfully	Pass	Low
Some section headings/fonts appear oversized and create overlapping/heavy UI apperances	Pass with observation	Low
Working correctly	Pass	Medium
Website usable but text-heavy	Pass	Low

PLATFORM CAPABILITIES

AI Does the Heavy Lifting. You Keep the Keys.

Six purpose-built modules that turn hours of manual QA work into seconds of AI-powered precision—all safeguarded by mandatory human-in-the-loop validation.

AI-Drafted CAPA Action Plans

No more typing action plans from scratch. Our AI analyzes the root cause and automatically drafts the corrective and preventive tasks. It assigns owners, sets deadlines, and evaluates client notification requirements—all in seconds. You just review and approve.

CAPA-0007: ACTION PLANNING

AI DRAFTING...

Production & Projects

400-AIOVA-QMS-AI

Production & Projects

Batch execution, CDMO projects and yields.

Project Hub (CDMO)

Multi-client project quality spaces with sponsor-facing audit portal.

Tech Transfer

Structured technology transfer protocol with gap analysis and sign-off.

Unified Batch & Material Registry

Single source of truth for all batches, materials and genealogy.

Yield Reconciliation

Mass-balance verification and AI anomaly detection for each batch step.

Cleaning Verification

Rinse and swab sample tracking linked to cleaning validation protocols.

Solvent Recovery

Solvent recovery yield tracking and reconciliation logs.

GOVERNANCE & PRIVACY

Data Privacy, Governance & Regulatory Terms

AIVOA Technology Private Limited - CIN: U62012KA2025PTC201675

PRIVACY & DATA

Privacy & Data Integrity

AIVOA's adherence to ALCOA+ and global health authority standards ensures every quality record is attributable, auditable, and immutable.

COMPLIANCE INTERLOCK

Strict Transactional Communication Policy

In compliance with GxP audit trail requirements and anti-spam protocols, AIVOA.AI does not engage in marketing or promotional email activities. All communications (OTPs, Workflow Alerts, and CAPA notifications) are strictly **Transactional** and serve as mandatory system interlocks for regulatory compliance under 21 CFR Part 11.

01

Immutable Audit Trails & Time Sync

All actions in AIVOA are recorded in a secure, computer-generated, time-stamped audit trail. Logs cannot be modified by end-users. All records are synchronized using NTP to satisfy 21 CFR 11.10(a).
